

Renovation:

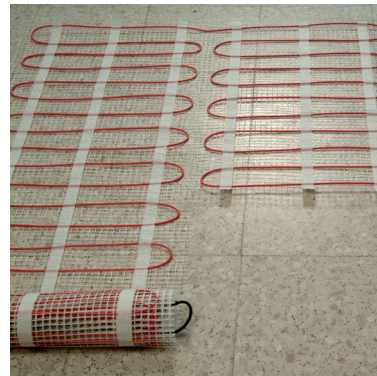

In connection with renovation of e.g. bathrooms in the old housing it is desirable to avoid new, high tile floors because of new concreting. Type II is a two-conductor cable with one-side connection.

SAN Thermo-net has many advantages:

- Fast and easy mounting
- Energy saving
- Low building height 3.5mm for type II
- Can be mounted in existing floor
- Delivered in 150W/m²
- Even heat distribution
- Fast reaction time
- Connection 2500mm for type II

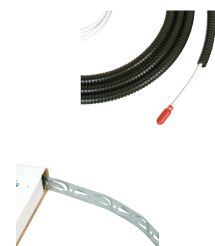

Connection:

SAN Thermo-net II has only connection at one end, two-conductor.

SAN Thermo-net II 230V 150 W/m²

Part no.	Area m ²	Dimensions mm	Power W
86440	1.00	500 x 2000	150
86442	1.50	500 x 3000	225
86444	2.00	500 x 4000	300
86446	2.50	500 x 5000	375
86448	3.00	500 x 6000	450
86450	4.00	500 x 8000	600
86452	5.00	500 x 10000	750
86454	6.00	500 x 12000	900
86456	8.00	500 x 16000	1200
86457	10.00	500 x 20000	1500
86458	12.00	500 x 24000	1800

SAN-REG 23 floor thermostat is applicable for control of floor heating cable.
