

## Jarl - Towel Warmer

Any bathroom or kitchen that gets a lot of use will generate plenty of wet towels. That's why the Jarl is the perfect heating solution for these areas. This smart design functions both as a radiator and towel warmer, with a generous number of rails to ensure that no matter how many towels you use, you'll always have a dry one to hand. The Jarl comes with a built in timer that allows you to set it to dry at full power over a twohour period everyday or manually as needed. It's a perfect solution for busy bathrooms.

### TECHNICAL DATA

- Electric, liquid-filled towel warmer/bathroom radiator.
- Hard-wearing epoxy paint (White RAL 9016).
- Straight side channels. D-shaped vertical pipes
- Easy to install

### THERMOSTAT

- Jarl is equipped with an electronic thermostat, which can be set in the following positions: Frost protection 7°C. ECO. Lowest temperature 16°C (frost protection off). Temperature 18°C - 24°C. Full output.
- Timer with 2 hr boost (or manual if required).
- Only for mounting with thermostat on the right hand side and connection with visible cable.

### PACKAGE

- Supplied with attached 90 cm connection cable and the necessary screws/mounts for installation.
